Specification

1. The specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential elements, such omission amounting to a gap between the elements. See MPEP § 2172.01. The omitted elements are: “the claim does not establish the structural relationship between the separation-assisting compound semiconductor layer and the substrate bulk”.

It is not clear what the structural relationship is between the limitations “GaAs single crystal” as recited in line 2 of claim 1 and “GaAs” as recited in lines 4 and 5 of claim 1.

Claims 1-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It is not clear what the structural relationship is between, composite growth-assisting substrate, the main compound semiconductor layer, residual substrate portion and bulk composed of GaAs single crystal, as recited in claims 1-20.
